MATAN KIDRONY

SENIOR BRAND & PRODUCT DESINER | UX/UI DESIGN, BRAND IDENTITY & DESIGN SYSTEMS

Email: kidronym@gmail.com | Tel: +972-526-884104 | LinkedIn | Portfolio

ABOUT ME

Senior brand and product with 15+ years designing web and mobile products for B2B SaaS and tech companies. Leads workshops and working sessions with product, engineering, and stakeholders, and turns user feedback and research into clear, consistent interfaces. Thrives in small, dynamic teams, working closely with domain managers and development leads, adapting quickly to changing needs while keeping the product consistent through design systems. Strong in user research, usability testing, and accessibility-aware design, with a front-end background and hands-on AI workflows that keep the work current and fast.

EXPERIENCE

PRODUCT & BRAND DESIGN LEAD | Matan.Design | 2011 - Present

Design web and mobile product experiences for startups and technology companies, working directly with CEOs, founders, product managers, and engineers.

Lead workshops and working sessions with founders, product, and engineering to define problems, align on priorities, and agree on design direction.
Own projects across user flows, wireframes, prototypes, UI, and design systems, from the initial problem through handoff and implementation.
Use AI tools and code prototypes (Claude Code, Lovable) to test ideas quickly and validate flows with real users before full engineering time.

FOUNDER & DESIGN LEAD | AI CREATIVE AUTOMATION LAB | 2025-2026

- Shipped AI-powered products end to end, from problem definition and UX to working product: OnePager.Fun and AI Growth Audit.
- Designed an analysis flow that reviews an entire SaaS application, from onboarding through core pages, and delivers a prioritized action plan.
- Built AI evaluation frameworks combining design metrics with qualitative review.
- Trained and evaluated AI models for layout, branding, and compositional logic.

HEAD OF DESIGN | Wideview.io | 2021 - 2024

- Managed and mentored an 8-member UX & writing team; built a strong design culture.
- Partnered with engineering and data teams to streamline production, cutting design-to-dev cycles by 40%.
- Defined design methodologies and feedback-driven validation frameworks, improving UX quality and efficiency.
- Created component libraries and design templates adopted by product team.
- Built and led Wideview's core design system and creative infrastructure, integrating cross-team workflows and design validation processes.

LEAD DESIGN ASSOCIATE | Techstars Accelerator | 2018 - 2020

- Doubled onboarding conversion through rigorous usability testing and iteration.
- Built clickable prototypes and product demos to test and communicate ideas quickly.
- Provided design leadership and execution for 30+ early-stage startups across fintech and SaaS, helping them systematize brand and product design to support growth.
- Bridged product logic and storytelling for high-growth firms like Voca.ai (Acquired by Snap).
- Mentored founders on design validation and storytelling for funding success.
- Scaled brand and product systems for diverse B2B enterprises and tech startups.

CORE SKILLS

- UX/UI Design for Web & Mobile

- Workshop Facilitation & Stakeholder Alignment
- User Research, Feedback Analysis & Usability Testing
- Design Systems & Product Consistency
- Close Collaboration with Development Leads
- AI-Assisted Design & Prototyping
- Tools: Figma (components, interactive prototypes), Framer, Claude Code, Lovable, HTML/CSS

EDUCATION

WIZO Design Academy, Haifa - B.Des.Ed. Design and Animation | 2006-2010
Mentor Tel Aviv - HTML + CSS Diploma | 2013

ADDITIONAL

Animation Lecturer @ WIZO (Former)
Design Mentor @ ADPlist
AI Prototyping & Vibe Coding (Claude Code, Lovable)

PERSONAL PROJECTS

OnePager.Fun - AI-powered One-Pager Creation (Link)
From startup idea to polished one-pager - in minutes.

GrowthAudit – UX & Design Concept Validation Framework (Link)
Usability testing pipelines improving design decision accuracy.
Analyze an entire SaaS application, from the onboarding,
flows and pages – and deliver an executive report with a prioritized action plan.
